8. Market how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity. Number of people under relief and state of food stocks.

11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Well supplied.

9. *Standing Crops.*—Paddy and sugarcane are in good condition but need water.

10. Good. Coolies find sufficient labour.

11. Cattle are reported to be generally healthy. Fodder is available.

KOLAR

8. Moderately supplied.

9. *Seeds sown.*—Ragi, avare, thogari and groundnut are being sown in some parts of Chikballapur, Sidlaghatta and Gudibanda Taluks. Ploughing operations are in progress but rains are very badly required.

2 Ragi, avare, thogari and groundnut are reported to be in good condition just at present but they are in need of good rains.

Crops harvested.—Nil.

10. Prospects of the season are reported to be fair. There was some rainfall during the week in all the taluks except Mulbagal.

Fodder and water are available for cattle.

11. People and cattle are reported to be generally healthy but for the prevalence of small-pox in some parts of Kolar; Cholera in Goribidnur and Anthrax in Sidlaghatta Taluks. Preventive measures have been taken to check the spread of the epidemics by the Public Health and Animal Husbandry Departments.

TUMKUR

8. Fairly well supplied.

Seeds sown.—Transplantation of Yade ragi and sowing of avare, togari and groundnut in Sira Taluk, groundnut and ragi in Pavagada Taluk, ragi and jola in parts of Turuvekere Taluk.

9. *Standing crops.*—Sugarcane in Tumkur, Madhugiri and Koratagere Taluks, jola and groundnut in Chiknaikanahalli Taluk, paddy and sugarcane in Gubbi and Kunigal Taluks; kar-ragi, haraka, jola, haralu, togari, groundnut, ragi in Tiptur Taluk and kar-ragi and jola in Turuvekere Taluk.

Crops harvested.—Paddy in parts of Turuvekere Taluk.

10 *Public Health.*—Generally good except for prevalence of cholera in Koratagere Town and of small-pox in parts of Chiknaikanahalli and Pavagada Taluks. It is reported that necessary action is being taken to arrest the spread of the diseases.

Fair in general.

11. Cattle are reported to be generally healthy except for out-break of Black-quarter in Setrupalya hamlet of Urdigere Village, Tumkur Taluk. It is reported that scarcity of water and fodder to the cattle is felt in Pavagada Taluk. Cooly classes find sufficient labour.

MYSORE.

8. It is reported that the markets are fairly well supplied in all the taluks of the district during the week.

9. *Seeds Sown.*—It is reported that ragi is being sown in Gundlupet and Hunsur Taluks.

Standing crops.—Such as jola, kar-ragi, togari and cotton are withering for want of rains. The rainfall during the week is inadequate. Jola crop has almost failed in Chamarajanagar, Gundlupet, T.-Narsipur, Yelandur and Mysore Taluks.

10. (1) Not favourable.

(2) The rainfall in all the Taluks in the District is insufficient except in the Taluks of Krishnarajanagar, Heggadadevankote and Periyapatna.

(3) The conditions in the affected taluks of Chamarajanagar, Gundlupet and Yelandur still continues to be unsatisfactory. Though there was slight rainfall during the week, the conditions have not improved much.

(4) Cooly classes find sufficient labour throughout except in the affected taluks, *viz.*, Chamarajanagar, Gundlupet and Yelandur. Necessary measures have been taken to afford relief by starting relief works in these Taluks.

(5) Sufficient quantities of foodgrains are made available in all the taluks in the District. Additional quantities of 42, 410 pallas of rice, 2,000 pallas of millets, 1,000 pallas of broken rice, 540 pallas of Horsegram and 191 pallas of wheat have been arranged to be supplied for distribution to people in the affected parts of Chamarajanagar, Gundlupet and Yelandur.

11. Cattle are reported to be healthy except for the prevalence of Anthrax in Gulipur and Honganur Villages in Chamarajanagar Taluk. Necessary remedial measures are being taken to check the spread of the disease. Sufficient quantities of water and fodder are not available. Acute difficulty for fodder is felt in the taluks of Gundlupet, Chamarajanagar, Yelandur and parts of Nanjangud and Hunsur. The price of hay has gone high. The adjoining State Forests in Gundlupet and Chamarajanagar Taluks have been thrown open for free grazing as a measure of relief.

MANDYA.

8. Well supplied.

9. The standing crops of Jola is reported to be in good condition in Pandavapura and Nagamangala Taluks. Transplantation of paddy is going on in Srirangapatna Taluk. Ragi is being sown in Nagamangala and Malavalli Taluks. The condition of the standing crops such as kar-ragi and kar-paddy is reported to have improved slightly after the recent rains.

10. Prospects of the season are reported to be fair.

11. Public health was generally good throughout the District except for the prevalence of Plague in Malagur Village in Krishnarajapet Taluk. Effective preventive measures have been taken to check the spread of the epidemic.

Cattle are also reported to be generally healthy. Water and fodder are available in sufficient quantities.

HASSAN.

8. Well supplied.

1 Doddaragi and sugarcane are being sown in Hassan, Hole-Narsipur and Chennarayapatna, paddy seedling are transplanted in Manjarabad, Hole-Narasipur, Alur, Belur and Arakalgud Taluks.

2 No damage to food crops.

3 Sugarcane is in good condition in Hassan, Hole-Narasipur, Arkalgud and Alur Taluks.

10. (1) Tanks have not received sufficient supply of water.

(2) Public Health generally good except the prevalence of plague at Honnehalli, Kasaba Hobli, Arkalgud Taluk. Preventive measures have been adopted.

11. Cattle are reported to be healthy. Water and fodder are available.

SHIMOGA.

8. Well supplied.

9. Ragi, jola, blackgram and paddy are being sown. Transplantation of paddy crop is going on.

Sudden and heavy rainfall in Sagar Taluk is reported to have washed off all seeds and spoiled germination.

10. Prospect of the season is generally good and the standing crops are reported to be in good condition.

11. Cattle are healthy in all the taluks except in Honnali and Shimoga Taluks. Cattle in Honnali Taluk are suffering from Chapperoga and the cattle in Shikarpur Taluk are suffering from Rinderpest. Preventive measures are reported to have been taken.

Water and fodder are available.

CHIKMAGALUR.

8. Markets are fairly well supplied but the prices of important commodities are highly exhorbitant.

9. *Standing crops.*—Paddy, ragi, jola, sugarcane in Chikmagalur Taluk; sugarcane, paddy, jola, groundnut, in Kadur Taluk; paddy, groundnut, til, jola, coriander and sugarcane in Tarikere Taluk; Sugarcane in Koppa Taluk; sugarcane and paddy in Narasimharajapura Sub-Taluk and areca in Sringeri Jahgir. Areca is infected with "Koleroga" and the ryots are spraying the crop with Chemicals. All the standing crops are fair.

Crops harvested.—Nil.

Seeds sown.—Transplantation of paddy in Chikmagalur, Koppa, Mudigere, Narasimbarajapura and Sringeri Jahgir was taken up. Jola, paddy in Kadur Taluk, ragi in Tarikere Taluk were sown. There were good rains throughout the District except in Kadur.

10. Public health is generally good except for the prevalence of Small-pox in parts of Tarikere Taluk, in respect of which preventive measures are reported to have been taken. The Small-pox epidemic in Kadur Taluk, is seen to have abated.

11. Cattle are generally healthy.

Fodder, seeds and labour are available.

CHITALDRUG.

8. Markets are reported to be well supplied except in control commodities.

9. *Sowing.*—Sowing of haraka, groundnut, hokaragi, jola, til, ragi and paddy are reported to be in progress.

Standing Crops.—Mungar jola, gidda ragi, til, togari, navane, sugarcane, sajje, groundnut and oil seeds are reported to be in good condition. But they are withering for want of timely rains.

Harvesting.—Nil.

10. Cooly classes are finding sufficient labour throughout the District.

11. Cattle are reported to be generally healthy throughout the District except in a few villages of Molakalmuru and Hiriyur Taluks where the "Blackquarter" disease is prevailing and in a few villages of Davangere, Harihar, Jagalur and Chitaldrug Taluks where "Rinderpest" cattle disease is prevailing. Precautionary measures are reported to have been taken by the Veterinary Department to check the spread of the disease.

Water is available throughout the District.

Fodder is available throughout the District except in a few villages of Jagalur, Holalkere, Chellakere and Chitaldrug Taluks.

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE,
Bangalore,
Dated 25th July 1950.

V. VEDAVYAS ACHARYA,
Revenue Commissioner.

3258

MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE, WEEK ENDED THURSDAY, THE 13TH JULY 1950.

The State remained free from Plague during the week. Cities of Bangalore, Mysore and Kolar Gold Fields Area reported free from Plague. Comparative figures for the corresponding week in 1949 and 1948 were 78 attacks with 35 deaths and 21 attacks with 16 deaths, respectively.

A total of 30 attacks with 8 deaths from Small-pox were reported from Bangalore Corporation, Kolar Gold Field and from Dodballapur, Gubbi, Jagalur, Krishnaraj Nagar and Kankanhalli Taluks.

Thirty-two attacks with 14 deaths from Cholera were reported from Mysore City and from Arkalgud, Bangalore South, Goribidnur, Gundlupet, Koratagere and Molakalmuru Taluks.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore City amounted to 198 (54 in hospitals) for 6 days representing a calculated death-rate of 24·1 (18·6 excluding hospital deaths) per mille of

population (annual basis) as against 26·7 for the corresponding week of last year. Classified according to causes the deaths numbered 2 under Small-pox, 3 under Cholera, 2 under Typhoid, 2 under Other Fevers, 12 under Phthisis, 41 under Dysentery and Diarrhœa, and 136 under all other Causes. The reported mortality was very low.

The total mortality for Mysore City was 54 (25 in hospitals) for 6 days representing a calculated death-rate of 17·2 (9·2 excluding hospital deaths) per mille of population (annual basis) as against 8·8 for the corresponding week of last year. Classified according to causes the deaths were: Small pox 1, Other Fevers 7, Phthisis 4, Dysentery and Diarrhœa 1 and all Other Causes 41. The reported mortality was very very low.

There were 20 deaths (10 in hospitals) for 5 days from All Causes in Kolar Gold Field Area equivalent to a calculated death-rate of 8·1 (4·0 excluding hospital deaths) per mille of population (annual basis) as against 13·0 for the corresponding week of last year. Classified according to causes the deaths numbered 1 under Phthisis, 6 under Dysentery and Diarrhoea and 13 under All other Causes. The reported mortality was very very low.

OFFICE OF THE DIRECTOR OF ANIMAL HUSBANDRY SERVICES IN MYSORE, BANGALORE.

Notification dated 24th July 1950.

(HEALTH OF LIVE-STOCK DURING JUNE 1950).

In their order of severity, outbreaks of rinderpest, black-quarter, anthrax, hæmorrhagic-septicæmia, foot and mouth contagious-goat-pleuro-pneumonia, sheep-pox, rabies and ranikhet were encountered in the State during June 1950. Altogether 315 villages were reported to have been affected by one or the other of the above contagious and infectious diseases as against 296 villages during the previous month. The number of outbreaks was highest in Bangalore, Chitaldrug and Kolar Districts, while Shimoga, Hassan and Chikmagalur Districts were least affected. These diseases accounted for 1,284 attacks, of which 941 succumbed as against 1,029 attacks and 609 deaths during the previous month. The departmental staff undertook 42,028 preventive inoculations and vaccinations against all the above diseases except foot and mouth disease. In the absence of a reliable method of vaccinatory intervention, other prophylactic measures were adopted against foot and mouth disease.

Rinderpest took a somewhat serious turn during the month and as many as 7 outbreaks were registered in Davangere, Harihar, Hosanagar and Shikarpur Taluks accounting for 148 attacks and 77 deaths. Prompt measures of control were undertaken by the department to check its spread and 15,049 cattle were protected against the disease, both in the infected villages and in their immediate neighbourhood extending over a radius of about 3 miles. The disease appeared to be well under control at the end of the month under report.

Diseases caused by internal parasites were reported from 191 villages resulting in 87 deaths, as against 184 villages accounting for 101 deaths during the previous month. The special staff attached to the parasitic disease control units and the Sheep Breeder's Associations of the department dosed 10,517 animals, as against 11,301 animals during the previous month.

The rest of the live-stock remained free from diseases during the month and fodder and water were generally available throughout the State.

P. M. NARAINSWAMY NAIDU,
Director.
